COMPANY PROFILE

About Us

Alternative wealth services co.,ltd. (AWS) is a provider and distributor of CAD CAM CAE software that is suitable for the nature of the customer's work. We also create IOT (Internet of Things) systems, Data collection systems, Robot installations, and etc. With professional extensive experience in the industrial sector, whether it is the automotive industry, Electronic Tooling Machinery, Our company is pleased to provide services and cooperate with customers in all aspects.

ZWCAD

VERICUT®

Vision & Mission

Vision

We are good listener and understand our customers' needs in order to deliver products and services that meet the needs of our customers' organizations to create beneficial and satisfaction and to make the supply chain continuous and sustainable.

Mission

Best Quality

Deliver the best products and services

High Technology

Bring the best technology deliver to customers

Best Customer Service

Service is main core of business

Our Service

ZWCAD

ZWCAD is a powerful, reliable, and DWG-compatible CAD solution for users worldwide. Available in 15 languages, it offers innovative, collaborative, and customizable features for designers and engineers in industries such as AEC and MFG.

Zero Switching Costs

- DWG compatibility for reading, saving and sharing drawings ensures lossless and easy.

Familiar Interface

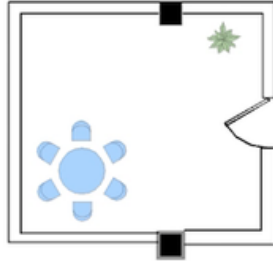

- You can freely choose between classic and ribbon interfaces. easy-to-use commands Get started right away with easy-to-use CAD commands and Alias.

Smart Mouse

Trigger commands with mouse gestures

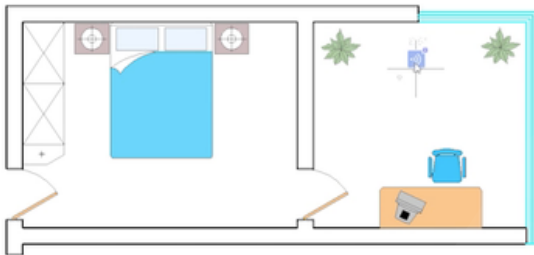

SMART MOUSE

Smart Voice

Annotate with voice messages

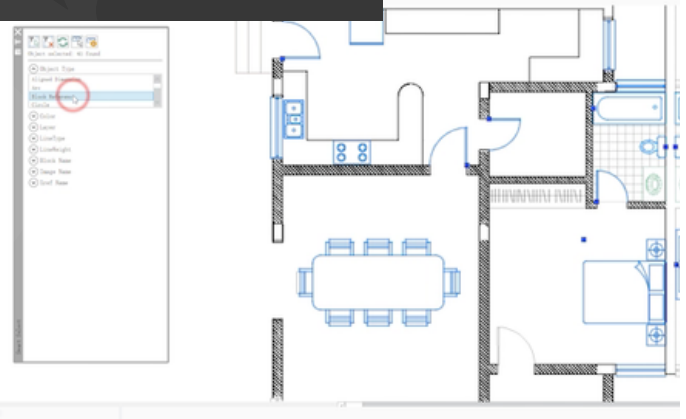

SMART VOICE

Smart Select

Select desired objects quickly with multi-filter

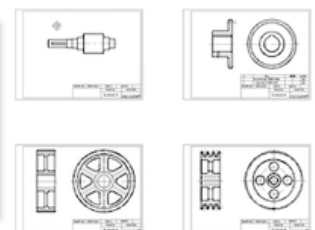

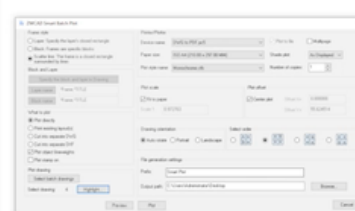

SMART SELECT

Smart Plot

Plot frames in batches from the model space

SMART PLOT

Boost Design Efficiency

ZWCAD Features

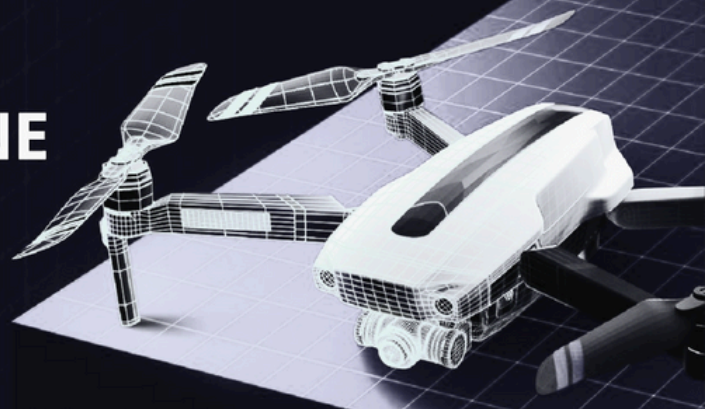

Our Service

ZW3D

ZW3D is an American-originated All-in-one CAD/CAM/CAE solution that supports work from the initial concept development to the production process. ZW3D helps you create better products, faster, and save lower cost. Our service supports use from small workshops to large organizations. With outstanding features such as Solid-surface hybrid modeling, Structural simulation, special tools for sheet metal, mold, 2.5–5 axis CAM work, and many more capabilities, ZW3D has everything you need in one program.

**AFFORDABLE ALL-IN-ONE
3D CAD/CAE/CAM**

INDUSTRIAL

GOODS

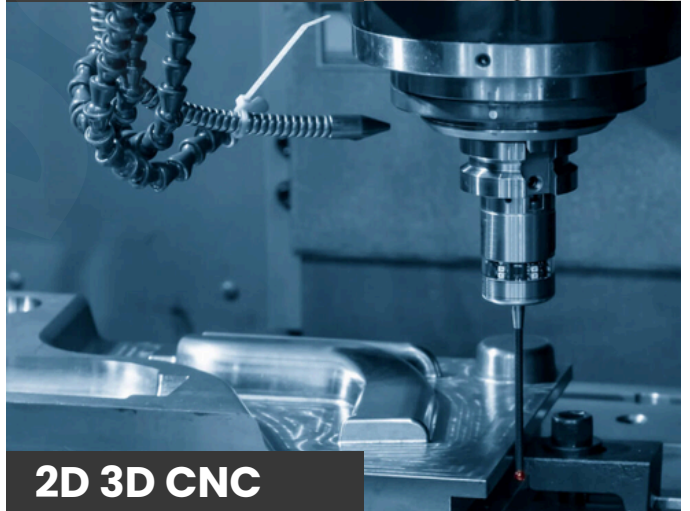

- Industrial Equipment
- Consumer Goods
- Plastic Molds
- 2 and 3-Axis CNC Machining
- Automotive Parts

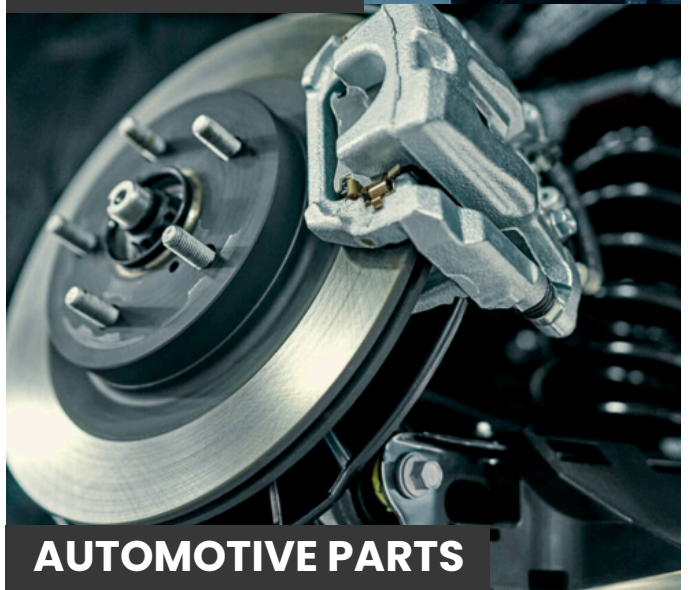

ZW3D Features

AUTOMOTIVE PARTS

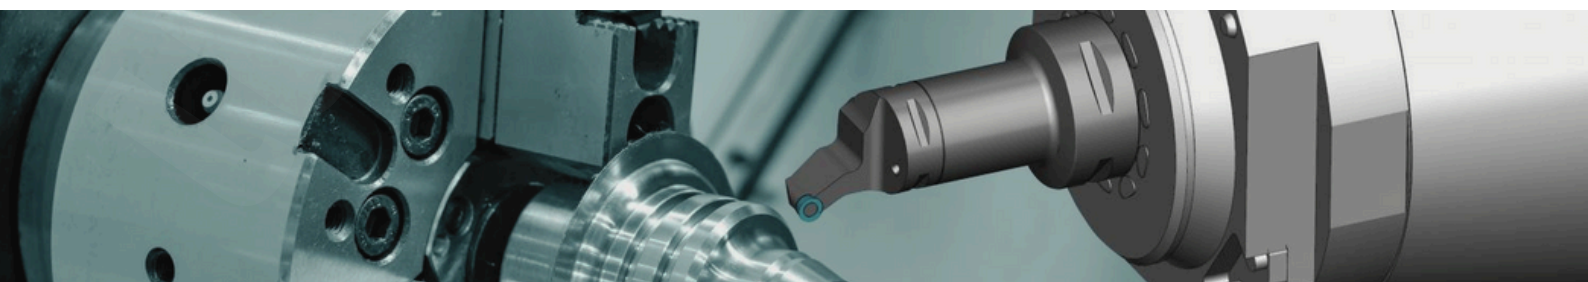

VERICUT®

Our Service

VERICUT

VERICUT is a software for checking NC Code from Post processor of CAM software for check NC Code to analyze the accuracy of post processor, especially large production jobs that require long production time or high value production jobs where errors are unacceptable. In addition to causing loss in the form of money, manufacturers and also waste time in correcting the work or may have to start producing that piece again, not to mention the damage that may occur to the machine and tools.

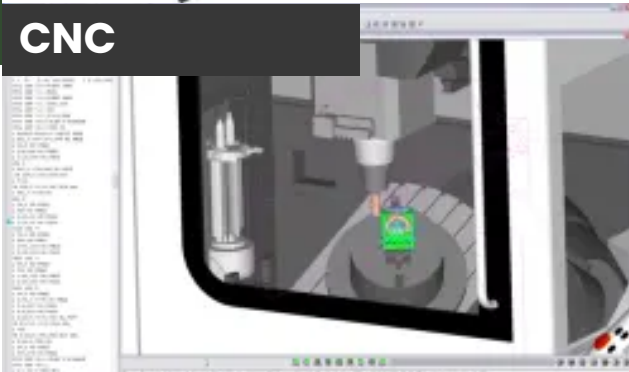

- Verification system with its own algorithm that provides accurate and precise results and works fast. VERICUT can receive millions of cut NC Program and supports all kinds of milling techniques.
- Best choice for the production of critical parts. VERICUT helps your production to be error free.
